

Green Valley Initiative receives \$100,000 grant from Edison

San Bernardino Sun

Oct. 15, 2008

The Green Valley Initiative has been awarded a \$100,000 grant from Southern California Edison to "help further the progress being made to promote clean and green technologies in Riverside and San Bernardino counties," according to a news release. "The grant will help fund the necessary steps toward establishing an independent, regional entity that will assume operations of (the Green Valley Initiative) in January," the release said.
